### Occupational Safety and Health Council

This is a forum in which representatives of the Companywide union and UBE's occupational safety and health officers gather to review annual occupational safety and health results and plans for the new fiscal year and discuss requests from both sides. Participants share prevailing issues and discuss ways to address them. We reflect forum results in the following year's plans. Several workplace accidents involving the employees of subcontractors have occurred in recent years. Labor representatives and management recognize the importance of coordinating better with subcontractors. Our annual plans accordingly include measures to foster safety activities with subcontractors.

### Labor-Management Councils

Following Occupational Health and Safety Council discussions with Companywide union representatives, regional business sites convene gatherings to discuss local union and management requests.
