Ube Shipping & Logistics and Hagimori Industries Become Wholly-Owned Subsidiaries of Ube Industries in Simple Share Exchanges

TOKYO, May 11, 2017 — Ube Industries, Ltd. today announced that it has decided to conduct share exchanges (hereafter “the share exchanges”) in which its consolidated subsidiaries Ube Shipping & Logistics, Ltd. and Hagimori Industries, Ltd. (hereafter “Ube Shipping & Logistics” and “Hagimori Industries,” or collectively termed “the target companies”) will become wholly-owned subsidiaries of Ube Industries. The details of the share exchanges are as described below.

Since the share exchanges will each be a simple share exchange which targets a consolidated subsidiary, disclosure items and details are partially omitted in the disclosure.

1. Purpose of the share exchanges

Ube Industries has decided to make the target companies into wholly-owned subsidiaries in order to respond flexibly to changes in the business environment and to achieve sustained business growth and enhance corporate value by utilizing the management resources within the UBE Group.

Ube Shipping & Logistics conducts coastal shipping and port transport businesses in Japan, which are responsible for the distribution sector of the cement business, the core business of Ube Industries. In addition, Ube Shipping & Logistics has actively expanded its business outside Japan, including chartering ocean-going vessels, trading, engineering and container businesses. Hagimori Industries operates building materials and concrete repair businesses with a focus on the manufacture and sale of ready-mixed concrete, which is a downstream business for cement.

By making the target companies, which are both controlled by Ube Industry’s Cement & Construction Materials Company, into wholly-owned subsidiaries, Ube Industries aims to integrate business strategy and management resources and speed up decision-making to further enhance the corporate value of the UBE Group.
