Ube Industries Announces Issue of Stock Acquisition Rights as Stock Options for Stock-Linked Compensation Plan

TOKYO, June 29, 2017— Ube Industries, Ltd., today announced that its Board of Directors has decided the subscription requirements for stock acquisition rights to be issued as stock options to the company’s directors (excluding outside directors) and its executive officers. The aim of this move is to raise the motivation and morale to improve the Company’s share price and business performance by linking the compensation of officers to the share price so that they share a greater common interest with the Company’s shareholders. The Board of Directors also resolved to solicit subscribers for the said stock acquisition rights. The details are as outlined below.

1. Name of the Stock Acquisition Rights to Be Offered

Ube Industries Fiscal 2017 Stock-Linked Compensation Plan Stock Acquisition Rights

2. Total Number of Stock Acquisition Rights to Be Offered

The above figure is the number scheduled for allotment. If the total number of Stock Acquisition Rights is reduced due to less application for subscription, etc., the reduced number of Stock Acquisition Rights shall be the total number of Stock Acquisition Rights to be issued.

3. Type and Number of Shares That Are the Object of Stock Acquisition Rights

The type of shares that are the object of Stock Acquisition Rights shall be ordinary shares of the Company. The number of shares for each Stock Acquisition Right (“Number of Granted Shares”) shall be 1,000 shares.

However, if a share-split (includes gratis allotment of ordinary shares of the Company, the same shall apply below regarding the descriptions of share-split) or consolidation of shares is conducted for ordinary shares of the Company on or after the date of the resolution, the Number of Granted Shares shall be adjusted by applying the following formula, with fractions of less than one share rounded down to the nearest one share.

Number of Granted Shares after adjustment = Number of Granted Shares before adjustment × Ratio of share-split or consolidation of shares

The Number of Granted Shares after adjustment shall be applied on or after the day following the record date thereof (the effective date thereof where no record date is specified) in case of a share-split, or from the effective date thereof, in the case of consolidation of shares.

However, if a share-split is made under the condition that a proposal to increase capital or capital reserve by reducing surplus shall be approved at a general meeting of shareholders, and if the record date of such share-split is set for a day prior to the close of said general meeting of shareholders, the Number of Granted Shares after adjustment shall be applicable retroactively on the day following the closing of the said general meeting of shareholders and thereafter, to the next day following such record date.

In addition, in the event that an adjustment of the Number of Granted Shares is necessary on or after the date of the resolution in the case that the Company implements a merger, a company split, or an equivalent case, the Company shall carry out the adjustment appropriately to the extent deemed reasonable.

If the Number of Granted Shares is to be adjusted, the Company shall notify the holder of each Stock Acquisition Right recorded in the Register of Stock Acquisition Rights (“Holder of Stock Acquisition Right”) of any important matters by the day immediately prior to the date on which the Number of Granted Shares after adjustment is applied. However, if the Company is unable to give such notice by the day immediately prior to the date for such application, such notice shall be given as soon as possible afterwards.

4. Amount of Assets Contributed on Exercise of Stock Acquisition Rights
